Capacity:	Up to 50'000 litres depending on water quality
Weight:	Approx. 550 g
Dimensions:	24 x 6 cm
Material:	Aluminium, stainless steel, silicone, ceramic
Accessories:	Prefilter, bottle adaptor and carry bag
Article No.:	8020425 Katadyn Pocket Black Edition

### FACTS

- The first portable water filter - today a classic.
- Made from top-quality, durable materials. This is why the Pocket is suitable for the toughest of conditions and is the first choice for extreme adventurers like Mike Horn.
- The tried and tested ceramic depth filter removes bacteria, protozoa and other disease-causing agents. The principle: The micro-organisms cannot pass through the pores of the filter ceramic (0.2 microns) because of their size (greater than 0.2 microns = 0.0002 mm).
- Unlike disposable filters, the ceramic can be cleaned several times - even in the field.
- Improved, round pump handle for better ergonomics and an outlet hose which can be attached to water containers with a simple clip.
