

MICROPUR ANTICHLOR - restores the natural taste of drinking water

PRODUCT CHARACTERISTICS

Active substances:	Natriumthiosulfat 6%
Effect:	Neutralizes chlorine taste within 3 minutes (converts chlorine into table salt = NaCl)
Dosage:	3 to max. 15 drops/litre (see backside)
Safety:	Avoid contact with eyes, skin and clothing. If contact occurs, rinse immediately with water
Storage:	Store in a cool dry place in the original container with cap closed. Keep away from light and under 25°C. Keep out of reach of children
Shelf Life:	5 years from date of manufacture
Article No.:	8013705

FACTS

- The practical solution for all consumers who dislike the taste of chlorine.
- Ideal for municipally treated water that is safe, but has an unpleasant taste.
- Only removes chlorine, not other flavors.
- Ideal for preparing drinks with chlorinated tap water, e.g. water for hotel room coffee machines (US hotels).

PRODUCT CHARACTERISTICS > BENEFITS

- Contains antichlorine > Neutralizes chlorine taste
- Highly effective sodium thiosulfate > begins working in only 3 minutes
- Easy to use > converts chlorine into table salt
- Practical fine doser > makes correct dosage easy
- Small and practical packaging > find space for it anywhere

SHORT PROFIL

Ideal for people who drink municipally treated water but do not like the taste of Chlorine.

MICROPUR ANTICHLOR - restores the natural taste of drinking water
