FACTS

The Ventura 200c, similar in size to the Ventura 150c but designed for water above 50°F (10°C), delivers over 8 gallons (31 liters) per hour. Its modular design makes it perfect for tight spaces, whether cruising or racing. The Ventura 200c features the Spectra Connect controller for remote operation and monitoring, with features like Fill Tank mode, customizable Auto Run mode, and One-Touch Sensor Calibration. Now compatible with Garmin, Raymarine, and Navico/Simrad Multi-Function Display (MFD), the watermaker provides even greater control from the helm, for faster, more convenient operations. Add the Z±ION Membrane Protection System to extend storage times for up to 30 days.
